

BUILT AROUND YOUR TEAM

Practical skills. Lasting habits.

Hands-on training for school districts, institutions, cleaning contractors and distributors. Build consistent practices through instruction and field coaching.

On-site training

Interactive workshops, equipment demonstrations and guided practice in your facility.

Field coaching

Custodial ride-alongs, troubleshooting and supervisor reinforcement.

Program development

Facility assessments, customized procedures, checklists and training plans.

PARTNER WITH US

A program that fits your facility.

Start with a workshop or build an ongoing training partnership.

01

Assess

Review current practices and identify training priorities.

02

Train

Build the right skills with focused, hands-on instruction.

03

Coach

Reinforce procedures in real working environments.

04

Measure

Use skills checks, inspections and follow-up reviews to guide improvement.

YOUR TRAINING PARTNER

Brooks Morgan

Training & Consulting

Request a facility assessment or a customized district / distributor proposal.

TRAINING / CONSULTING / COACHING

REAL AI APPLICATION INTELLIGENCE

ATHLETICS / LOCKER ROOMS / CLASSROOMS / BATHROOMS

WHAT WE BRING

- Infection prevention training
- Floor & restroom care expertise
- Hands-on equipment instruction
- Facility assessments & troubleshooting
- Team coaching & custom procedures

BETTER SKILLS. CLEANER FACILITIES.

Hands-on training and field coaching help your team work safely, protect surfaces and deliver consistent results.

OUR CORE SPECIALTY

Infection prevention

Build repeatable cleaning and disinfection practices that support healthier shared spaces.

- Cleaning, sanitizing and disinfecting: understanding the differences
- Disinfectant selection, label directions, dilution and wet contact time
- High-touch surfaces and cross-contamination prevention
- PPE, chemical handling and safe work practices
- Blood and body-fluid response procedures
- Outbreak-response planning and coordination
- Restroom and classroom disinfection routines
- Inspection, documentation and coaching

FROM KNOWLEDGE TO PRACTICE

Demonstrations, skills checks and practical checklists help teams apply the training.

Instruction aligned with product labels, facility policies and assigned staff duties.

TECHNICAL DEEP DIVE

Floor care that fits.

Choose the right process for the floor, soil, equipment and desired outcome.

Clean & maintain

Floor identification; daily cleaning; autoscrubbing; interim maintenance; carpet spotting and extraction.

Restore & protect

Stripping, scrub-and-recoat, finishing and sealing. Stone-care fundamentals, including honing and polishing.

Pads vs. brushes

Match tools to surface, task and machine speed. Learn which pads to use and when a brush is the better choice.

UHS vs. conventional

Understand ultra-high-speed burnishing versus conventional low-speed scrubbing and buffing, with appropriate finishes and maintenance plans.

HANDS-ON APPLICATION

Equipment setup • Technique
Troubleshooting • Skills checks

Selection follows floor, machine and product manufacturer recommendations.

CLEANING + FIELD SUPPORT

Restrooms. Buildings. People.

Restroom care

Cleaning sequence, fixtures, grout, mineral deposits, soil-specific chemistry, odor sources, touchpoints and restorative cleaning.

Building care

Classrooms, entries, hallways, gyms and common areas. Daily, periodic and seasonal cleaning plans.

Leadership & consistency

Supervisor coaching, onboarding, inspections, workloading, inventory control and train-the-trainer programs.

Distributor training

Technical sales training, product and equipment demonstrations, site surveys and customer troubleshooting.

Ride-alongs

Coach custodial teams on site or join distributor sales teams for account visits and practical application support.

Workshops • Coaching days • Assessments
Customized programs • Annual partnerships
